

Please remember: Your position on the golf course is related to the group in front of you and not the group behind you!

USGA Rules Govern All Play with the Following Exceptions:

- "Desert Rule": If you find your ball in a desert area: **under penalty of one stroke**, a player may take relief from the desert area by dropping the ball within two club lengths of the nearest point of grass relief, no nearer to the hole.
- Lost Ball or Ball Out of Bounds Rule: If you lose your ball outside of a penalty area or hit your ball out of bounds: **under penalty of two strokes**, a player may determine where their ball was likely lost or out of bounds and drop at two club lengths from nearest fairway edge, no closer to the hole (no need to take stroke and distance).
- All bodies of water are considered penalty areas. (*Unless stated in an official event's rule sheet*).
- Any sand areas that are enclosed by grass or grass and rock are considered penalty areas. (*You may not ground your club*).
- Any sand areas that border desert area or water are to be played as a waste area. (*You may ground your club and it is not a penalty area*).

Proper Etiquette

- Proper golf attire is required at all times.
- Golf cars must remain on the cart path on all par 3's and a minimum of 20 yards from the green.
- Please utilize purple stakes for entry & exit of each fairway.
- The desert vegetation is very susceptible to damage. Please assist us in preserving the natural setting by being extremely careful when venturing into our desert areas.
- Please properly repair two ball marks on every green. (*Makes up for those who forget*).
- Please rake sand penalty areas and fill your tee and fairway divots with the sand/seed mixture.

Additional Notes:

- Out of bounds are defined by white stakes or lines, perimeter walls, snow fence, and hay bales.
- The GPS yardage provided on the golf car is an approximate measurement to pin location.
- Restrooms are located at or near the following locations:
Firecliff – 3 tee, 5, 9, 11, and 13 greens.
Mountain View – 3, 9, 13, and 16 greens.

As owners, the City of Palm Desert is proud that Desert Willow Golf Resort is irrigated with reclaimed water as part of a conservation effort. A special thanks to the Agua Caliente Band of Cahuilla Indians for allowing us to replicate the Indian Canyons.
